

Car Washing Made Simple

## Chemical Tire Applicator (Arch Mountable)

The AVW Arch-Mountable Chemical Tire Applicator is designed to apply cleaning solutions with precision and consistency. Mounted directly to an existing arch structure, this unit provides a clean, space-saving solution for enhancing tire appearance and customer satisfaction.

### Features

- Arch-mountable design for streamlined installation and minimal floor space use
- Precision nozzles ensure even and controlled chemical application to tires.
- Durable stainless-steel construction for long-term reliability in wet environments
