

Car Washing Made Simple

# Drying Top Brush

The AVW TR5-EL Flex Top Brush is engineered to enhance vehicle drying by removing residual water from the roof, hood, and trunk surfaces post-rinse. This flexible, electric-driven top brush is designed to follow vehicle profile with precision, improving drying results and overall tunnel efficiency.

## Features

- Articulating arm for consistent surface contact
- Electric drive for precise speed and motion control
- Adjustable pressure and reverse function for vehicle-specific tuning
- Stainless steel construction for long-lasting durability in wet environments

## SPECS

Electric Motor	1.5 HP 230/460 V 4.66/3.33 A
Construction	Stainless Steel
